

Unique Audible Tactile Design

- Audible tactile design provides sensory feedback to the consumer that the bag is closed.
- Available in special material for a high-integrity side seal using less crushing energy.
- Requires less crushing time and/or temperature, allowing faster converting cycles.
- Easy-to-crush material creates high-quality side seals that won't leak, gap or distort.
- Lower sealing temperatures reduce film distortion for improved package appearance.
- Style 505 is available with either clear or colored locks.

Audible Tactile provides the Click "Push Lock" technology to assure the bag is closed.

The Zipper style 505 made with our Soft Seal material and special sealant offers an unique audible tactile design for your package. The locks are available in clear or colored. The Soft Seal material provides easier edge crush and the special sealant layer lowers sealing temperatures with less film distortion.

Zipper Specification

Product Description:

STYLE 505 - Audible Tactile Zipper

PROFILE WEIGHT:

2.5 grams/ft +/- 0.1 grams/ft

WIDTH MEASUREMENTS:

14.0 mm +/- 0.5 mm

FOOTAGE/SPOOL:

Large Spool: 12,000 ft + 100 - 0 ft

COLOUR:

PROPERTIES:

Zipper material(s): Soft Seal material with special sealant

Suitable for food contact applications

Sealing temperature range: **200-280 ° F

Holding force from product side: 2.5 lbs target avg.

Each spool individually wrapped & placed in individual shipping case. **Temperature range may vary depending on type of package film used.
